Suggested Revision to IPC List on Bulgaria

1. In view of the recent change of priorities for mapping and geodesy in USSR and Satellite IPC Lists from 2.e. to 1.c., and the request for an immediate revision on Bulgaria, the attached suggested revision for Bulgaria is submitted. ACSI will submit a similar suggestion to the Army representative on the IPC committee.

2. Suggested revisions for the remaining Satellites and the USSR will be forwarded to your office as soon as possible for use as new drafts are revised.

**Suggested Revision to IPC List on Bulgaria**

**Objective I. c.**

**A. Guided Missiles**

**Basic Requirements**

Paragraph (as shown)

"

"

(Add) Collection of topographic maps published 1953 or later according to Soviet specifications at scales of 1:25,000, 1:50,000, and 1:100,000 and related geodetic data of Bulgaria is required to obtain target location information vital to the ability of the U. S. to successfully counter a possible Soviet missile attack.

No.	Target	Location
1.	Geografski Institut (Military Geographic Institute), formerly Durzhaven Geografski Institut (State Geographic Institute)	Troyan #42-53, E24-13 (formerly in Sofia)
2.	Geodeziya i Kartografiya Upravlenie (The Geodesy and Cartography Administration) subordinate to the Ministry of Communal Economy, Public Works, and Roads, formerly Glavnoe Upravlenie Po Geodeziya i Kartografiya (Main Administration for Geodesy and Cartography) subordinate to the Council of Ministers.	Sofia Lenin Square 16
